

FA/CPR Options For Certification

Girl Scouts Heart of the Hudson (GSHH) continues to offer Medic First Aid opportunities for certification. With so many Troops moving back to in-person meetings, there is a high demand for FA/CPR courses. GSHH will continue to add courses as our Trainers make more available. Please continue to look at our GSHH events calendar as all new FA/CPR courses will be listed there.

GSHH does accept FA/CPR certifications from other agencies/providers. Please review the information below:

Some Girl Scout approved providers of First Aid/CPR certifications have returned to offering blended and in-person courses, and volunteers may seek approved certifications from them. Certification from these providers must include First Aid, CPR, and AED training for adults and children.

Approved courses include:

- [American Health & Safety Institute - MEDIC First Aid PediatricPlus CPR, AED, and First Aid for Children, Infants and Adults](#)
- [American Red Cross - Adult and Pediatric First Aid/CPR/AED](#)
- [American Heart Association - Heartsaver Pediatric First Aid CPR AED Training](#)

The certification that has been traditionally provided by Girl Scouts Heart of the Hudson is American Health & Safety Institute's MEDIC First Aid Pediatric Plus CPR, AED, and First Aid for Children, Infants and Adults. You can search for a local training center that offers this course here:

<https://emergencycare.hsi.com/locate-a-training-center> by entering your zip code and choosing "PediatricPlus G2015" as the program.
